

Vocational Training Fund

Date:

Every year, some ten young people leave our project in order to start a vocational training or a secondary school education after having terminated the tenth form. For 10 young people, we need about 7.200 Euros per year from vocational training-sponsorships. Within three years - that's the term for our young people to get this support - this amounts to 21.600 Euros per annum for us to raise.

Therefore, we have decided to establish a vocational training-fund. For each child as of the age of six, we will regularly save an amount for the duration of ten years which is being paid out of this vocational training fund. Interests help us to employ less donated money for the education/vocational training of our children on the long run. In intervals of three years, we regularly deposit 4.500 Euros for ten children. After a ten-year-term, we pay the amount that comes from this vocational training-fund out to our children.

On a medium or long run, the vocational training-fund is designed to finance the vocational training of our children and to secure their future at an early point of time. However, this vocational training fund is also dependent on your support.

It is up to you to determine the amount of your donation. You do not enter a contractual relationship and at any point of time and without adhering to any kind of term, you are free to suspend your payment upon written notice.

I'm going with a single/monthly/annual donation of Euro to pay in the Vocational Training Fund of the children's project in Pokhara.

The first payment will be made on

Please transfer your donation via a standing order or as a one time donation to the account of the Freundeskreis Nepalhilfe e.V.:
